- Delivered project 3 at Clydeside Bank: migrated legacy services, improved uptime and coached colleagues across two teams.
- Delivered project 4 at Clydeside Bank: migrated legacy services, improved uptime and coached colleagues across two teams.

Engineering Manager, Orbital Software

2023 - 2024

- Delivered project 1 at Orbital Software: migrated legacy services, improved uptime and coached colleagues across two teams.
- Delivered project 2 at Orbital Software: migrated legacy services, improved uptime and coached colleagues across two teams.
- Delivered project 3 at Orbital Software: migrated legacy services, improved uptime and coached colleagues across two teams.
- Delivered project 4 at Orbital Software: migrated legacy services, improved uptime and coached colleagues across two teams.

Senior Developer, MetroTrain

2021 - 2023

- Delivered project 1 at MetroTrain: migrated legacy services, improved uptime and coached colleagues across two teams.
- Delivered project 2 at MetroTrain: migrated legacy services, improved uptime and coached colleagues across two teams.
- Delivered project 3 at MetroTrain: migrated legacy services, improved uptime and coached colleagues across two teams.
- Delivered project 4 at MetroTrain: migrated legacy services, improved uptime and coached colleagues across two teams.

Developer, Highland Energy

2018 - 2021

- Delivered project 1 at Highland Energy: migrated legacy services, improved uptime and coached colleagues across two teams.
- Delivered project 2 at Highland Energy: migrated legacy services, improved uptime and coached colleagues across two teams.
- Delivered project 3 at Highland Energy: migrated legacy services, improved uptime and coached colleagues across two teams.
- Delivered project 4 at Highland Energy: migrated legacy services, improved uptime and coached colleagues across two teams.

Developer, Pixelworks Studio

2017 - 2018

- Delivered project 1 at Pixelworks Studio: migrated legacy services, improved uptime and coached colleagues across two teams.
- Delivered project 2 at Pixelworks Studio: migrated legacy services, improved uptime and coached colleagues across two teams.
- Delivered project 3 at Pixelworks Studio: migrated legacy services, improved uptime and coached colleagues across two teams.
- Delivered project 4 at Pixelworks Studio: migrated legacy services, improved uptime and coached colleagues across two teams.

Junior Developer, Caledon Insurance

2016 - 2017

- Delivered project 1 at Caledon Insurance: migrated legacy services, improved uptime and coached colleagues across two teams.
- Delivered project 2 at Caledon Insurance: migrated legacy services, improved uptime and coached colleagues across two teams.
- Delivered project 3 at Caledon Insurance: migrated legacy services, improved uptime and coached colleagues across two teams.
- Delivered project 4 at Caledon Insurance: migrated legacy services, improved uptime and coached colleagues across two teams.

Graduate Developer, Northstar Logistics

2013 - 2016

- Delivered project 1 at Northstar Logistics: migrated legacy services, improved uptime and coached colleagues across two teams.
- Delivered project 2 at Northstar Logistics: migrated legacy services, improved uptime and coached colleagues across two teams.
- Delivered project 3 at Northstar Logistics: migrated legacy services, improved uptime and coached colleagues across two teams.
- Delivered project 4 at Northstar Logistics: migrated legacy services, improved uptime and coached colleagues across two teams.

IT Support, Quayside Tech

2012 - 2013

- Delivered project 1 at Quayside Tech: migrated legacy services, improved uptime and coached colleagues across two teams.
- Delivered project 2 at Quayside Tech: migrated legacy services, improved uptime and coached colleagues across two teams.
- Delivered project 3 at Quayside Tech: migrated legacy services, improved uptime and coached colleagues across two teams.
- Delivered project 4 at Quayside Tech: migrated legacy services, improved uptime and coached colleagues across two teams.

Education

BSc Computing Science, University of Glasgow, 2006 - 2010
